MYSQL

PROJECTS

Online Voting System

📅 12/2022 - 02/2023

Online Voting is a web-based voting system that will help manage elections easily and securely.

- Validating the system to ensure that only legible voters are allowed to vote.
- Using php, mySQL at backend and HTML, CSS, JAVASCRIPT at frontend.

Movie Recommendation System

📅 02/2023 - 05/2023

This is a recommendation-based project using python and machine learning libraries.

- Using Matrix factorization algorithm and CNN algorithm.
- The main objective is to create a machine learning model to recommend relevant movies to users based on popularity and user interests.

Personal Portfolio

📅 08/2023

Build my personal portfolio using HTML, CSS and Javascript

- A clean, beautiful and fully responsive portfolio
