PERSONAL PROJECTS

Movie recommendation system (02/2023 - 05/2023)

- This is recommendation based project using python and machine learning libraries.
- Using Matrix factorization algorithm and CNN algorithm.
- The main objective is to create a machine learning model to recommend relevant movies to users based on popularity and user interests.

Online Voting system (12/2022 - 02/2023)

- Online Voting is a web-based voting system that will help you manage your elections easily and securely.
- Validating the system to ensure that only legible voters are allowed to vote.
- Using php, mySQL at backend and HTML, CSS, JAVASCRIPT at frontend.
